THE WORLD'S WONDER.
DR. ABBETT'S ANTI-DYSPEPTIC
—OR—
LIVER MEDICINE
A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as
Chronic and Acute Inflammations of the Liver,
Dyspepsia, Sick Headache,
Sourness of the Stomach,
Loss of Appetite,
Lowliness of Spirits, Colic,
Costiveness, Fever, Ague,
Bilious Fever, Dropsy and Jaundice.
These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.

LAGRANGE, GA., DEC. 3, 1869.
MESSRS. CRAWFORD & WALKER, West Point, Ga. Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.
I am, very respectfully,
T. S. BRADFIELD, Druggist.

WEST POINT, GA., OCT. 15, 1869.
MESSRS. CRAWFORD & WALKER: Gentlemen—I can honestly and confidently recommend L. B. Abbett's Liver or Dyspeptic Medicine, as prepared by you, to the favorable notice of the suffering public. Having used this Medicine myself in my family for twenty years, I can highly recommend it for removing pain or flatulency from the stomach, caused by indigestion. It also has a happy effect in removing constipation of the bowels. I believe it to be the best universal remedy the world has yet discovered for the above named diseases. With my best wishes to you in introducing this valuable Medicine to the public, I remain, Yours, truly, A. K. KENDRICK.
For sale by all the Druggists in Atlanta, and by Druggists everywhere.

EVENING EDITION.

ATLANTA, GEORGIA, MARCH 3.

City and Suburban Affairs.

TRAVELING UNDER A FALSE NAME.—It appears that the sharper who victimized the Franklin Printing House about the Hotel Registers was named Calhoun. Mr. A. H. Brittin writes us from Chattanooga, under date of March 1, as follows:

"Your issue of Monday last contained an article on one Britton or Brittin, as it should have been, if the party you mentioned had been in the city. But being at one time connected in business with the man Calhoun, and he still using the old firm blanks and worse, passing on my name, you have as is generally the case, got the wrong party.

"I have no connection either directly or indirectly, with said Calhoun, nor never transacted any business in your city."

"C. W. Baker, Job Printer, at Chattanooga writes:

Mr. A. H. Brittin has been in my employment since January 21, 1870. He is an honest and industrious young man, and your error in the name does him an injustice. Be so kind as to correct it for the honor of the craft."

We cheerfully make the amende honorable to Mr. Brittin. We learn that he has not been out of Chattanooga for the past two months. Calhoun must be a hardened swindler and possessed of right good cheek.

COMMERCIAL.

COTTON FOR FUTURE DELIVERY.

(Private Telegram.)

NEW YORK, March 2, 1870.—Cotton for future delivery on basis of low middling, March, 21¼; April, 21⅜; May, 21½; June, 21⅝. Market dull and declining.

ATLANTA, 1 O'CLOCK, March 3, 1870.

Business moderately active. The great drawback to commercial transactions is the almost prohibitory rates of local freights, and the lack of transportation for local freights.

The Georgia Matter.

The telegraphic intelligence from Washington this morning, about the Georgia matter, was important.

The Washington correspondent of the New York Times writes the following, which renders the matter more intelligible:

"The Judiciary Committee of the Senate have substantially agreed upon the report which they propose to make on the organization of the present Legislature of the State of Georgia. The principal features are understood to be these: The Committee agree that there were several irregularities in the organization of the Legislature, consisting of the appointment of the man Harris to preside at the outset; the recesses ordered by General Terry; the Board of Inquiry who investigated the question of ineligibility, and the seating of the persons having the next highest number of votes, which, though it had a Democratic precedent, is found to be alike unauthorized, either by the laws of Georgia, or the laws of the United States. The Committee will, nevertheless, report that, in their opinion, no further legislation is either wise or necessary, and will recommend that the present *status* of the State Government be accepted, and an end put to the troubles of Georgia.

"There is a general disposition among both parties in the State to accept the results as they now stand. The Democrats acquiesce because they fear a worse result for them in case of new legislation. The question of Senators is not included in this decision. That will come up in the consideration of the question whether the Georgia Legislature, at the time Hill and Miller were elected, was a legal and competent body. The strongest Republican lawyers in both Houses hold that as the illegal act of the Legislature was not committed until after these Senators were elected, their election was, therefore, perfectly legal. In the House, Judge Bingham holds that it is entirely unnecessary to pass a second act of admission, the Fortieth Congress having declared that the State was entitled to representation."

It will be observed that the committee seems to confine itself to lashing the illegal action of Gov. Bullock and Gen. Terry. It, in fact, condemns the whole thing. When we take out the appointment of Harris to preside, the recesses to juggle, the Military Board to prune down, and the putting in the next highest candidates, all of which are declared illegal by the committee, and which we argued at the time were illegal, and against which the Democrats and Conservative Republicans entered solemn protests, there is really nothing left to pass judgment upon save the election of Senators.

In regard to them, the correspondent of the New York World thus writes, showing that the committee condemn their election too, though we are not informed that they thus reported:

"The Senate Judiciary Committee had a most protracted session yesterday, on the Georgia Senatorial question, and came to the important conclusion that Whitely and Farrow were not legally elected; that, in other words, the Legislature which had just elected them, had no power to do so. Having disposed of these bogus claimants, the Committee next took up the credentials of Hill and Miller, and propose to investigate, and see if each was elected by a majority of the qualified members of the Legislature—that is to say, by members who were not disfranchised by the third section of the 14th Amendment. If they find that they were so elected, or either of them, they will report that they ought to be admitted to seats in the Senate, as duly entitled to represent the State of Georgia."

Thus the entire action of the Bullock faction stands branded as violative of law, and a gross wrong upon our people. Thus the position of the Conservatives is vindicated in every particular. The Committee's report, we regard as very important, to this extent: Whatever be the final action of Congress on the matter, after a long and thorough examination by the able men of all grades of political opinion, composing the Judiciary Committee of the United States Senate, *they unanimously declare that the whole execution of the Georgia bill by Bullock and Terry, has been wrong and usurpative.*

There is another important feature of this report. It distinctly declares false the criminal assumption of Gov. Bullock, that the Legislature is provisional, but says it is permanent. This, if endorsed, will kill the revolutionary hope of Governor Bullock to hold over beyond his term, and illegally govern Georgia for two years longer than he was elected.

But while the decision of the Committee upon the organization is thus clear and sound, it seems to us a strange conclusion to permit confessedly illegal things to stand. We can appreciate the difficulties under which the Committee labored in seeking a remedy for these wrongs they condemned. Between a desire to see the matter settled quickly, and a fear of making things worse by uprooting illegalities, it has been perplexed. But we do think that it should have been required of the Legislature to put back the men illegally put out by General Terry, and to purge it of the next-highest men and fill their places by legal members.

So much stickling has been made over the ineligibles who were before in, that a little would not be out of place now. If it was wise and necessary to reorganize us for putting out eligibles and substituting ineligibles, surely the same wrong now at least requires, if not a reorganization, a restoration of the former and an exclusion of the latter.

The upshot of the Committee's report is that it is simply a condemnation of Governor Bullock and General Terry, without suggesting any course, save the passive one of letting wrongs alone.

The following debate took place on Saturday in the House:

ADMISSION OF GEORGIA.

"Mr. Butler, of Massachusetts, from the Reconstruction Committee, reported a bill to admit the State of Georgia to a representation in Congress, and asked to have it put upon its passage.

"Mr. Bingham, of Ohio, hoped it would not be pressed until after it was printed. Georgia had already been admitted to a representation.

"Mr. Cullom—Twice.

"Mr. Butler—It is *in totidem verbis*, the same as the Virginia and Mississippi bills.

"Mr. Eldridge suggested that Mr. Butler should also include the State of Massachusetts.

"Mr. Butler, yielding to various suggestions made, had the bill recommitted and ordered to be printed, giving notice that he would report it back on Tuesday.

"Mr. Beck offered a substitute, which was also ordered to be published."

The bill offered for the admission of Georgia is similar to the Virginia bills. This bill forbids the Constitution of the State being changed so as to prohibit anybody from voting, or of depriving anybody from holding office on account of race, color, etc., or from enjoying school rights and privileges.

The whole matter comes up on the discussion, and it is impossible to tell what will be the result.

In regard to Captain Blodgett, the correspondent of the New York Sun thus writes:

"WASHINGTON, Feb. 21.—The Senate Judiciary Committee spent several hours on Saturday upon Georgia matters, and especially upon the question which Senators should be entitled to seats. There was considerable hostility to Foster Blodgett as Senator for the six year term, beginning in March next. It appeared, however, that the Legislature had authority, under the act of Congress which regulates the election of United States Senators, to elect a Senator for the term to which Blodgett is chosen, and that next winter is the time to elect a Senator for that term. On an examination of the votes by which Hill and Miller where chosen, it was found that when the votes of those disqualified to vote were thrown out, Hill, Republican, was short one of an election, and Miller, Democrat, had one to spare. It was figured that the only clear way out of the trouble was to repudiate entirely the first Legislature, and to recognize the last one and the Senators chosen by them. This brought up some of the conservative lawyers, and debate ran high until they adjourned to take time for a fresh start next Tuesday."

OUR WASHINGTON LETTER.

Washington Bad for Invalids—Too Much Tooting—A Funny Contest—A Car-Scene with Sumner—The Georgia Matter—The Georgia Senators—Bard—A Happy Family.

WASHINGTON, Feb. 26, 1870.

I should recommend invalids to stay away from Washington. Not that its mild climate, its bright sunshine and balmy breezes, are not healthful and invigorating; but simply because there is not, from sunrise until after dark, one single moment in the day when one's nerves are permitted to rest. The news boys cry their wares more often, more persistently, and more discordantly, than elsewhere under the sun. The peripatetic venders of oysters have taxed our ingenuity which must be devilish to make the days hideous with bugles, the horns and demoniacal shrieks. It is "blow, bugle blow," until one looks expectantly for a squad of cavalry to drop down the street with jangling sabres and clattering hoofs; toot! toot! toot! as if an army of Angel Gabriels had been let loose; and shriek! shriek! shriek! until one wishes that the stock in trade of these infuriated oystermen had been left by the "sad sea wave." And then we have orange peddlars; two men to a wagon; each crying at the top of his voice, and in divers keys and various phrases, their "nice sweet oranges, at 15 cents a dozen." Cheap enough, you will say; but then they are really as sour as vinegar; and the noise made by the readers sets each individual nerve on edge.

But it is on Sunday morning, when one wants to enjoy the customary Sunday morning nap, that the worst crying evil of all obtrudes itself upon the suffering community. The selling of Sunday papers is confined almost wholly to black boys—one boy to each copy of the Sunday issues is a fair average, although very often you find two boys with one paper between them. One boy holds the paper, and the other shrieks. When the shrieker has shrieked himself out, he takes the paper, and his companion shrieks. After careful investigation, I am satisfied that to say there are three boys to every door-step, is far from exaggeration. They commence shrieking at the first streak of dawn, and they keep it up until noon. Sleep is impossible. Curses, not loud but deep, from the great disturbed are more than probable. *As rest,* I would say to invalids who desire quiet, and people who have nerves, do not come to Washington until these nuisances are abated—a happy consummation of which, however, I have little hope.

A "CONTESTED SEAT."

There was a ludicrous as well as a serious scene connected with Mr. carpet-bagger Whittemore's not altogether graceful retirement from the House of Representatives, on Thursday last. Mr. Benton, of New Hampshire, had "negotiated" with Whittemore for his seat, and even while the yeas and nays were being called, a page was engaged in crossing Whittemore's name, and as soon as Mr. W. rose to sneak out, Mr. Benton slipped into the seat. Mr. Farnsworth, of Illinois, who had "negotiated" with some officer of the House, came up soon after, and laid claim to the seat. Quite a parley ensued between the two gentlemen, which resulted in the abdication of Mr. Benton, and the occupation of the seat by the member from Illinois. The lid was raised, a page summoned, and the "traps" of Mr. Farnsworth were formally removed to his new quarters. The seat, which now has a certain historic interest is the third from the door, on the main aisle, and on the left hand side as you face the Speaker. It is now occupied by a good man, and one who is not a carpet-bagger. This is cause for congratulation.

STREET CAR STATESMANSHIP.

Yesterday, Mr. Sumner was riding towards the Capital in an L street car. A negro entered, and worked his way up until he got beside the Massachusetts Senator. Next came Senator Drake, who seated himself opposite Sumner, and addressed him as follows:

"I am more than ever convinced that the clause in the Constitution, granting to each State a Republican form of government, gives us the right to establish such a government in any State where it does not exist."

This was said in a very grandiose and dogmatic manner. Sumner replied, in deepest loss:

"I don't think there is any question about that. If there is, we must place it beyond a doubt."

Then your "unreconstructed" correspondent, not being able to endure the society the negro, Sumner and Drake, rang the bell and got out of the car, into the pure air, which thus far remains untainted by Radicalism, or burdened with Constitutional Amendments.

THE RECONSTRUCTION COMMITTEE

Appears to have gone back on Messrs. B. F. Butler and Gus Farnsworth, members of the committee. These gentlemen some time since declared that no further legislation was necessary for the admission of Georgia; but Butler was instructed by the committee to report, and yesterday reported, a "Georgia bill" identical with the Virginia and Mississippi bill. He attempted to force the bill through the House at once, but failed, and it will be printed and recommitted. A resolution to be offered by Mr. Beck, will be presented also. Bingham and other Radicals will oppose Butler's bill, but there is no reason to anticipate that they will be able to secure its defeat. It will, in all probability, be virtually the same fight that took place over Virginia and Mississippi, and with the same result. Your readers shall be fully posted by telegraph.

THE GEORGIA SENATORS.

Senator Hill has returned home. Senator Miller remains quietly in his apartments, in dignified retirement, while Whitely and Farrow haunt the Capital all day long, lobbying and button-holing. Blodgett arrived yesterday, and hastened to the Capital to scent possible flesh pots. These worthies display themselves daily on the floors of the Senate Chamber and House of Representatives. I wonder if they think they can *pre-empt* their seats.

EX-CARPET-BAG CONGRESSMAN PRINCE

Witnessed the expulsion of Whiteman from the floor of the House, and doubtless congratulated himself that the investigation into the sale of cadetships was not called for while he was a member. He has not yet been confirmed as postmaster at Augusta; and it is said will not be until the Military Committee have closed their labors.

Another ex-Congressman from Louisiana, who is now contesting a seat, is implicated in cadetships. This makes three truly loyal carpet-baggers from that State who have fallen under the ban. Three cases involving sitting members will soon be reported. The efforts to implicate Democratic members will fail.

BRYANT AND CALDWELL

Are not at sword points, as the report of the proceedings before the Judiciary Committee on Saturday week would seem to indicate. They clashed somewhat in opinion, through certain misconceptions on the part of one or the other, but these were explained away before Mr. C. returned to Georgia, where he was called by the death of a member of his family. They will fight it out on the same line hereafter.

DR. SAM BARD

Has not been confirmed as Governor of Idaho; and some think he will not be. I incline, however, to a different opinion, and think he will go through. He is rather uneasy himself, however.

A HAPPY FAMILY,

From Georgia, is sojourning at the National Hotel. Messrs. Whitely, Farrow, Blodgett, Angier, Tweedy, Bryant, Rice, and others sojourn in peace and amity.

EDUCATIONAL NOTES.

Bowden Collegiate Institution—An Appeal.

Mr. Editor: Founded as a collegiate institute in 1856; chartered as a college in 1857; re-established in 1868, this institution of literally liberal education now makes an appeal to the friends of education, generally, for donations of any kind, money, apparatus, engineering or surveying instruments, books, maps, charts, globes, geological and mineralogical specimens, anything suitable to advance the interests and object of a thorough going educational enterprise. It proposes to use these donations, not to support itself, but to educate the odd 208 of the 39,000 young men of Georgia, who are at present not enjoying educational privileges.

The college numbers, at present, 75 students, and has two literary societies. It grants, on graduation, two degrees. Its commencement day occurs the Wednesday succeeding the first Sabbath in July. The French course at this institution is particularly thorough and extensive; the discipline, singularly successful.

As for John M. Richardson, the President, he is a man in sympathy with the best culture of the day, an anxious awake worker, one of our best educators, and with much that is fresh and genuine in the heart of him. With all your forgettings, don't forget Bowden.

EARNEST.

CARTERSVILLE, GA., March 2, 1870.

Dear Constitution: Knowing you to be a true friend to the good people of Georgia, and one who looks after and advocates her interests, under any and all circumstances, I wish to ask you a question, and I hope you will give us your opinion.

I see an old Georgian, Mr. Miller, who has been running as freight conductor on the Western and Atlantic Railroad, was discharged a few days ago, and a "red hot" carpet-bagger put in his place; and not only this case, but many other native Georgians, whose interests are in the State, and men whose honesty and integrity as gentlemen have never been doubted, were recently removed, and carpet-baggers, who have no interest whatever in the State, placed in their places.

Are we to submit to such outrages any longer? Are we to be ruled the balance of our lives by carpet-baggers?

Very respectfully,
Your ob't serv't,
GEORGIAN.

A RAP AT THE GIRLS.—An Omaha lecturer thus discussed the question the other night:

"Twenty years ago the ladies were their own dress-makers, and how beautiful they looked to the brave men who then courted them. Then they wore no hoops, no switches, no anything, but were just as God made them. A lover could then tell whether his love weighed one hundred and eighty or seventy-five pounds; could tell at a glance what she was. But now they could not tell whether the girl was made by the dress-maker or by God; they looked her over, and were not sure she was not half cotton; touched her head, and didn't know whether they felt nature's hair or a musty waterfall. Twenty years ago we were all better, looked better, and were better Christians. We had progressed for the worse, and as we continued so would the boys follow."

From that particular locality comes the article known in the market as the Rio coffee to the amount of 400,000,000 pounds yearly, or more than one-half of what is supplied by the whole world, viz: 712,000,000. Java gives 140,000,000; Ceylon 40,000,000; St. Domingo 40,000,000; Cuba and Porto Rico 35,000,000; Venezuela, commonly known as Caracas coffee, 25,000,000; Sumatra 25,000,000; all others, including Mocha, 18,000,000.

DEFIES REFUTATION.

I. W. AVERY, Editor.
MORNING EDITION.
ATLANTA, GEORGIA, MARCH 4.

☞ Some time back the Radical organ stated that our present Washington correspondent, Argus, was J. P. H. As a matter of fact, we corrected the error, in credit to both. The organ, notwithstanding our correction, has reiterated its incorrect statement in the last day or two.

We now say again the organ is mistaken, and insist that it state the matter correctly.

PERSONAL.—We had the pleasure yesterday, of a call from Mr. McLean, the Proprietor of that staunch and influential Democratic paper, the Cincinnati Enquirer. We had a long and pleasant chat with him, and found him an agreeable and intelligent gentleman. He is here with his wife and daughter and is *en route* for home.

We also had a call from Mr. Robert L. Shackleford, special agent for the American Law Times and Reports, published at Washington, D. C.

The Brignoli Troupe.

It never rains but it pours. Atlanta is to have a full meal of musical art. Patti warbles to us this week. Miss McCulloch, another great prima donna, delights us next week, assisted by the world-known Brignoli.

We are glad these artists are coming, because we wish our people habituated to the highest standards of esthetic and artistic taste. It can not but exercise a beneficial influence.

Captain Blodgett's Paper.

A few days ago, Captain Blodgett's paper contained a very discourteous allusion to this journal, in connection with this paragraph, which that paper says was started by THE CONSTITUTION, and which it seems to pronounce untrue:

The negroes working on the Georgia Road are forced to take the *Atlanta Era*, under penalty of losing their situations.

That journal is entirely mistaken. THE CONSTITUTION did not start the paragraph. It was started by the Dalton Citizen, and simply copied by THE CONSTITUTION.

We have waited answering, that we might learn the facts.

THE CONSTITUTION did publish two communications from responsible parties, one in Ringgold, and one in Calhoun, that the Radical organ was improperly forced upon the employees of the State Road, though not that they were forced by the threat of dismission.

The editor of this paper saw, this morning, a negro who was in the employ of the State Road, though he is not now, who alleges that he can not read, that he never subscribed to that paper, but that he received, as part of his wages, a receipt dated in January, for five dollars for six mouths' subscription to the *Era*. The writer saw the receipt and read it. The negro said that he knew four other colored employees of the road, who can not read, who were made subscribers to that paper in the same way. The negro also said that in the last few days the road authorities had offered to refund him his money.

We have not before editorially alluded to the matter, but have let the facts go to the public for what they were worth, on the simple authority of responsible correspondents, and leaving the public to judge for itself.

Now, we have simply to say to our irate neighbor, that losing temper and using inapplicable and very indiscreet language about this paper, is not the proper way to refute damaging charges, involving business conduct highly condemnable. Fussing over one branch of a charge as false, when other parts, equally condemnable, are unrefuted, is simply quibbling. Erroneously mixing up the courtesy of this journal with a matter that should be viewed solely in the light of fact, savors more of spite and evasion, than a desire to vindicate.

Patti.

Some how or other our Atlanta audiences have not the reputation abroad for taste and æsthetic culture. The matter will be tested to-night. We have an opportunity of hearing as fine a genius of vocal music as the world affords. Such chances do not happen to small cities like ours more than once in many years.

Carlotta Patti has won the applause and turned the heads of the first musical cities of the old and new worlds. Our people can to-night show that they are up to the age in appreciation of the peerless in art.

The following from the Macon Telegraph and Messenger, will show how the Macon people were dazzled. Our contemporary went clear daft:

FIRST PATTI CONCERT.—The first concert of the two announced in this city was given last night in Concert Hall, to a full house made up of the elite, fashion and refinement of Macon.

Altogether we never attended a more brilliant and wonderful musical entertainment in Macon, than that of last night, and we express the general opinion, of those present, when we say so.

Of M'lle. Carlotta Patti, we hardly know what to say. She filled every ear, heart and soul present, brim full of melody—sweet, pure and bewitching. Nor can we tell how she did it any more than the rose can tell how it is filled and teems with fragrance. We never heard a sweeter voice than Carlotta Patti's. Jenny Lind's was the sweetness of the flute—Carlotta's is the sweetness of the violin. Jenny Lind excited our wonder—Carlotta Patti challenges our love and admiration. If Adelina Patti is Carlotta's superior, it is only, perhaps, in strength or power of tone as a singer—it is nearly impossible that she sings sweeter or has greater compass of voice. But, be this as it may, we do not expect, nor do we care to hear Carlotta Patti's superior, this side of heaven.

Burlingame and Brooks.

Before the war Anson Burlingame acquired much notoriety in connection with Preston Brooks, who larrupped the Massachusetts Sumner in Congress. Burlingame denounced Brooks' conduct, and accepted a challenge from the latter, but the duel never came off. Since Burlingame's death, some of the northern papers have talked unkindly about Brooks, in connection with the affair, and in great glorification of Burlingame.

This unworthy attempt to spatter the brave memory of a chivalric and long dead Southerner, has drawn forth the following letter from Gen. J. H. Clanton, of Alabama, to the Montgomery Mail. We reproduce it, as a part of the history of the times, and under an undeviating rule to lift up Southern honor, whenever atrocious calumny seeks to blotch its purity.

To the Editor of the Mail: The State Journal of yesterday republishes from the New York Tribune a biographical sketch of the late Anson Burlingame, in which disparaging reference is made to the caning of Sumner by Brooks in the Senate Chamber at Washington—applying to the latter the epithets "bully," "poltroon," etc.

Where that gallant spirit is personally known, living or dead, he needs no defense. I was one of those who disapproved of the place and weapon which he selected to administer a merited castigation to the physical giant from Massachusetts, for his insulting abuse of the ladies of the South. The street, and a cowhide, would have been more appropriate.

It was my good fortune to be born within a few miles of the birth-place of Preston Brooks, and to have been well acquainted with his personal history. His grandfather was a revolutionary soldier; his father a model citizen and gentleman. When a young man, he accepted a challenge from Hon. Louis Wigfall. He did not, like Burlingame, select the Clifton House, Canada, as the place of meeting; but a little island in the Savannah river only ten or twelve miles distant from his place of residence. In that combat both parties were wounded. When the State of Carolina was called on for volunteers for the Mexican war, Preston Brooks was one of the first to respond, and commanded a company in the gallant Palmetto Regiment, under his maternal uncle, Col. Butler, who fell at Cherubusco leading a charge upon the enemy's breastworks.

An incident which occurred just outside the walls of the city of Mexico in May, 1847, will illustrate the impetuous character of our hero. Being officer of the guard he found it necessary to punish a couple of delinquent sentinels belonging to a Northern regiment, which was encamped in a convent between the "guard quarters" and the Palmetto regiment. Captain B. being relieved and these fellows released from confinement, as he passed the convent, they had preceded him, and with a large number of others had taken position on the top of the building and behind the parapet wall, and as he passed attempted to pelt him with "rotten eggs." He halted when the first egg was thrown, deliberately drew his pistol, popped a cap at the head of the first man who threw, and drawing a second *all* heads had *disappeared*.

If the vandals who burnt Columbia did not steal or destroy the "Cast monument," erected by the Legislature of South Carolina to the survivors of that regiment, the name of Preston Brooks may be found inscribed in letters of iron on that roll of fame.

The assertion that Burlingame ever intended fighting Brooks is ridiculous. If he had, he would have crossed the Potomac to a spot near at hand, where brave men from every section, without molestation from the civil authorities, had fought and fell. He preferred being followed for a thousand miles through the Northern States, where Radical mobs, he knew full well, would take good care of his gallant adversary. It was regarded at the time, by all fair-minded men from everywhere, as a cowardly subterfuge, on Burlingame's part.

The editor of the State Journal who republishes this slanderous article, knew that there was not one word of truth in it, so far as Preston Brooks was concerned. Until very recently bought up, he boasted that although born in New York, he had not one drop of Yankee blood in his veins; that he was a Calhoun Democrat, and served four years in the Confederate army. It may be treason, Mr. Editor, to make war upon the United States Government, but it is not treason to defend the reputation of our fallen comrades through the press, and if made necessary, on the street and on the field. When I fail to do it, may my tongue cleave to the roof of my mouth, and my right hand forget her cunning.

In haste, your friend,
J. H. CLANTON.

A PARDON IN ADVANCE.—Gov. Scott, we thought, says the Charleston Courier, was swift to pardon, but Gov. Bullock, it appears, outstrips his South Carolina brother in the race. Chief Constable Hubbard, it will be remembered, was arrested in Augusta last fall, and held to bail by Justice Lils—the charge being false imprisonment. Gov. Scott sent the required amount of bail. The case was to be tried next week, but Gov. Bullock has sent a pardon to Mr. Hubbard in advance of his trial. The Chronicle and Sentinel says:

There is no doubt in the world that if Hubbard should have come to trial he would have been convicted, as the testimony against him was of the most positive and convincing nature. Indeed, so assured was the prisoner himself of the result, that he had announced his intention of not coming to Augusta when the Superior Court met, preferring rather to let the money of South Carolina be forfeited than to face a Georgia jury. Thus Bullock has again interfered with and arrested the process of the law by means of a document, which, as Governor, he has the honor, we believe, of having invented—a pardon in advance of a trial.

Men in Love.

There is something very cruel in the contempt with which women, as a rule, look upon a man who is in love. One might have thought that compassion (which is nearly akin to contempt, however, with many people) would have been a more appropriate feeling; but it can not be denied that a man is never less a hero with the women of his acquaintance than when he is desperately in love with some particular woman. If it be his good fortune to have inspired a similar attachment in the bosom of the young person who has upset his reason, she, out of all her sex, may be inclined to see something fine and noble in his devotion, but your ordinary women—and above all your extraordinary women, who has some power of satire, and loves to revenge the weakness of her sex by laughing at ours—can not help regarding a lover as a rather silly person who has caught a fever which is about as ridiculous as measles to a grown-up man. In novels the case is quite otherwise; and nothing in fiction attracts the sympathy of women so much as a perfect abandonment to a wild and impetuous affection, with the spectacle of a rhetoric-loving young man conquering every difficulty, and overcoming all manner of obstacles for the sake of his sweetheart. But in actual life, a man finds himself compelled to keep a strict watch over any exhibitions of affection he may be inclined to indulge in, and if he does not, the women of his acquaintance look upon him as "softy," and shrug their shoulders in a highly humorous way over his folly. As for the modern young lady, she conceals her affection so thoroughly that you would almost imagine she had none.—*Templar Bar.*

Stealing "Openly Proclaimed" by the Atlanta New Era.

From the Sun and Times.

Editor Sun and Times: As an old Printer, I don't know when, as an honest man, and as a good lover of good old Georgia, my sense of propriety and justice has been so much outraged, as in taking up the Atlanta New Era of the 24th ult. In picking up that paper, I saw about two and a half columns, half of which were blank, with a line containing "A Proclamation" at the head of each advertisement, which I found were nothing more than the ordinary Governor's Proclamations, for arrest of fugitives from justice, which, in the times of Towns, Johnson, Brown and Jenkins, measured about three or three and a half squares, and which, by the "quads" or "blocks of zinc" used by the "Era," makes these advertisements measure ten or eleven squares. Those advertisements, written with no more words in them than these advertisements in the "Era," were usually inserted once and cost the State about $3 or $3.50 each. These advertisements, (one of them,) I see are ordered in the daily three times and in the weekly one time, costing the State from $18 to $25 each, six, seven, or eight times more than formerly. Men who would thus attempt to swindle the State ought to be put in the penitentiary, and the Comptroller General who would sanction the payment of such accounts, ought to be kicked out of office as soon as possible as either a *knave* or a *fool*. I hand you the paper containing these advertisements, that you may judge for yourself.

Not long since I saw similar "displays" of these advertisements in Gov. Bullock's other organ, the Atlanta Intelligencer, but these "displays" were not so glaring and extensive as those of the "New Era."

THE GOLD PANIC.

Reports of the House Committee—Conclusions of the Majority.

WASHINGTON, March 1.—Gen. Garfield, Chairman of the Committee on Banking and Currency, made his report to-day, on the gold panic. It gives a circumstantial account of its history and comes to the following conclusions in view of all the testimony:

1. Prominent bankers and merchants who testified before the committee were nearly unanimous in the opinion that there was no sufficient reason for the existence of the Gold Exchange and Gold Exchange Bank; that they were sources of measureless evils and ought to be destroyed.

2. The gold conspiracy dealt a heavy blow at our credit abroad by shaking the faith of foreign capitalists in the stability of our trade and the honesty of our people. Hundreds of firms engaged in legitimate business were wholly ruined or severely crippled. Importers of foreign goods for many days were at the mercy of gamblers and suffered heavy losses, in fact, the entire country was injured, the foundations of business and morality were shaken, and numerous defalcations shortly followed that were clearly traceable to the mad spirit engendered by speculation.

U. S. AND HIS BROTHER-IN-LAW.

3. The Committee find that the wicked and cunningly devised attempts of the conspirators to compromise the President of the United States, or his family, have utterly failed. Corbin, using the opportunity which his family relationship to the President offered, and under the worst form of hypocrisy, which puts on the guise of religion and patriotism, used all his arts to learn something from the private conversation of the President, which could be profitable to him and his conspirators.

MRS. GRANT.

The report relieves Mrs. Grant and Gen. Porter from any suspicion of gold gambling. All the public funds entrusted to General Butterfield were faithfully accounted for.

BUTTERFIELD.

It is not conclusively proved that he was interested with the conspirators in the exercise of the price of gold, though, on this point, the testimony is conflicting.

Gould swears positively that he bought two lots of gold for Butterfield, amounting in all to a million and a half dollars. Butterfield, also under oath, denies this statement. Both Fisk and Gould swear they received messages from Butterfield and answers to messages they sent during the day of the panic, in reference to news from Washington, and this statement receives some support from Brown, a messenger of the Sub-Treasury.

It is proved by the testimony that during the days of the panic two firms—brokers—sold gold by Butterfield's orders and for his profit, and that during his whole term of office he was dealing largely in United States bonds on his own account. When asked by the Committee whether he knew of any officer of the United States who was directly or indirectly interested in gold, he answered unqualifiedly in the negative, but when afterward confronted with the testimony of Seligman, concerning his purchases of gold, he admitted it was true.

REMEDIAL LEGISLATION SUGGESTED.

The Committee recommends the adoption of the following resolutions:

That the Committee on Ways and Means be instructed to repot a bill levying such tax on the transactions of the Gold Exchange on Gold Exchange Clearing Houses as in their judgment the interests of the country demand.

That the Committee on Judiciary be instructed to inquire into the expediency of reporting a bill to define and punish conspiracy against the credit of the United States and the business of its people.

That the Committee on Banking and Currency be instructed to inquire whether any further legislation is necessary to prevent the improper use of certified checks by national banks, and that they have leave to report by bill or otherwise.

MINORITY REPORT—THE INVESTIGATION PARTIAL AND INCONCLUSIVE.

Messrs. Cox and Jones unite in a minority report. They contend the inception of the gold plot was involved in the appointment of the Assistant Treasurer at New York; that it was encouraged by changing the policy of Secretary McCulloch; that sales of gold, if at all made, should be regulated by law; that the committee refused to investigate the conduct of persons, including the President, in Washington, and that, therefore, the investigation was partial.

THEATRE—*The Italian Opera.*—Another large and appreciative audience assembled at the theatre last night to greet the Brignoli Troupe in their production of Verdi's grand and beautiful opera, "Il Trovatore." The caste embraced the entire strength of the company, and all seemed in better spirits and condition than was the case on the occasion of their first appearance the night before. They had recovered, doubtless, from the fatigues of their long voyage from Galveston, and entered into the rendition of this master-piece "with the spirit and the understanding." We have never seen Signor Brignoli to better advantage than in his truly great role of Manrico, last night. The music through the entire opera of "Il Trovatore" is of that peculiar sweetness so well suited to his wonderful voice, that it is no wonder that he "brought down the house" from time to time. Miss McCulloch was warmly received in her representation of Leonora, and her singing was as sweet as the most fastidious could desire. She has ever been an especial favorite of ours since we first heard her, and the more we hear her the better we like her. She sings with such taste, and exhibits such high orders of cultivation, that it becomes an impossibility for her to fail in winning the unqualified approval of her audiences at all times. One of the best hits of the evening was made by Miss Henne as Azucena. This was her first appearance before a Mobile audience, and judging from the rounds of applause with which she was greeted she has no cause to regret her effort. She is indeed a talented contralto, and adds much to the celebrity of the troupe. Signor Petrilli admirably executed his role of Count Di Luna, as he does all that he undertakes. His rich barritone can not fail to attract favorable attention wherever listened to. The remainder of the troupe came fully up to their respective parts, and taking all in all, we are indebted to the Italian Opera for one of the most pleasant and agreeable evenings we have spent in a long time. We exceedingly regret that their stay among us is so limited. To-morrow night, and one matinee on Tuesday, at 12 o'clock M., closes their engagement in this city. The bill for to-morrow evening consists of Donizetti's great tragic Opera, "Lucrezia Borgia."—*Mobile Tribune.*

☞ A frantic old bachelor, away out in Colorado, has become excited on the woman question, and thus gives vent to his emotions through the columns of the Chieftain:

The revolution is already inaugurated! The war has actually begun! The thundering tread of their awful feet is ringing through the Eastern States! Lo! their mighty legions make a Western move! They have captured Wyoming! They come—they come—the conquering sheroes come!

"Be swift my sword, be jubilant my feet!"

I see their fearful weapons—the terrible broomsticks, the grinning hair-combs, the formidable pokers, the unsightly mops, the steaming tea-kettles and the dangerous case-knives—I see them all! Their dishwater banners wave majestically in the breeze, and their organized bands of squalling young ones—

"—music make of melancholy sort!"

MAKING HER FLY.—Old Aunt Dinah was a shouting colored saint of the city of Charleston, who would sing at the top of her voice and cry "glory!" above all the rest of the congregation. It was common at the missionary prayer meeting of the colored people to take up a collection while singing the hymn—

"Fly abroad, thou mighty Gospel."

In the midst of which Aunt Dinah always threw her head back, shut her eyes and sang away lustily till the plate passed.

The sable collector observed her habit, and one evening stopped when he came to her and said bluntly:

"Look ahead, Dinah, you needn't be-a-singing 'Fly abroad, thou mighty gospel' if you don't give nothing to make her fly!"

The Texas Legislature won't have a Chaplain or reporters.

Foster Blodgett's Powers of Persuasion.

A correspondent of the *New Era*, writing from Washington City, says:

"All that is now wanted to hasten matters, is the presence of the Hon. Foster Blodgett. I know he has the peculiar faculty of convincing men, often against their own judgment."

This peculiar faculty of convincing men against their judgment is not confined to Mr. Blodgett, but has been practiced by other bright and shining lights of the Radical party. The logic used to produce conviction against their better judgment, has, it is believed, frequently been drawn from the State Road; and, if reports be true, it was this kind of logic which gave Mr. Blodgett many votes, and finally procured his election to the Senate. We have no doubt but this logic, if given in large doses, would produce a powerful effect upon many members of Congress. But will the supply hold out?

The State Road, although the earnings each month are immense, can not stand everything. When one official drew upon it, there was a small item of twenty-five thousand dollars a month left for the State; but lately, since there were so many using the persuasive powers of the State Road logic, there is no dividend, or a very small one left for the people. It is evident that this supply will not be sufficient to fill all of the demands of the party; and it is feared by many that in their inordinate greed for more money, the Radicals will be driven to the desperate expedient of selling the State Road to satisfy their immediate wants; and like the fools in the fable, kill the goose which laid the golden eggs, and thus destroy the source of their supplies for the future.—*Federal Union.*

A STORY WHICH ILLUSTRATES THE STATUS OF A SMALL CLASS.—Years ago, in those happy days when the Virginia intellect got a certain cultivation on the court-house green, best understood by those who know what talk and oratory in the agora or forum did for the Greeks and Romans—years ago a certain friend of ours encountered, on some public day a bucolic philosopher, whose ruling passion was for political debate. He forthwith accosted the gentleman of whom we speak:

"Sir," said he, "I'd like for you to tell me what sort o' principles you ar' a gwine on in this 'lection, anyhow."

Our friend, whose known aversion to political disputes had provoked this absurd address, answered: "When you know the principles of your own party then you may ask those of mine."

The sturdy yeoman put his arms akimbo, and glowing with patriotism and apple toddy, exclaimed: "Not know the principles of my own party!"

"No; you don't."

"Well, I know enough for this, if anybody'll tell me what the d—d Democrats ar' agwine to do, I'm agin that!"

This was the substance of his rustic philosophy, and it seems that some of his relations survive him to this day. But when in their antipathy to a name, they rush into the arms of Sambo it will be to find that without gaining his confidence they have forfeited the respect of all decent people.

It is proper, however, for us to remark, that we think only a few of these haters of the Democracy will seek the cold embraces of the man and brother. Our own conviction is that this course will be pursued only by those who are utterly lost to everything but an eager appreciation of the possibilities of office.—*Norfolk Virginian.*

Politial.

Quoth the raven, Whittemore! nevermore!

Virginia has passed a law allowing 12 per cent. interest in cases of special contract.

That negro elected to the Supreme Bench of South Carolina holds his elevation only until June.

Somebody has observed the negroes in the Alabama Legislature part their hair in the middle.

According to a bill in the Alabama Legislature, drunkenness, excepting on the part of the members thereof, is to be a penitentiary offense.

The Green Bay (Wis.) Gazette places at the head of its, columns the name of Gen. U. S. Grant for President of the United States in 1872.

The total cost to Tennessee of the late Constitutional Convention, every item included, was $21.242 20, as shown in the appropriation bill now pending in the General Assembly.

The New York World has McClellan in training for the Presidential race, judging from the way it keeps inflaming the public mind about "Little Mack."

A negro in South Carolina will occupy the wool-sack of the Supreme Bench, whereby we shall have the phenomenon of a negro with wool at both ends of him. [*Chicago Times.*

At the same time beware of your restless middle man. He is on the fence with a vengeance, and only wants half a chance to beat a Republican drum in a Republican torch-light procession.—*Columbus paper.*

A movement is on foot in the Massachusetts Legislature for a change in the Constitution by which members of one or both branches of that body may be elected for two or more years.

The Chicago Tribune says of Morton's late speech: "Regarded as an argument in favor of 'protecttion,' the Senator's effort is one of the weakest we have ever seen. Regarded as an effort to demolish one of the planks in the Democratic State platform, it has more of the elements of valor than of discretion."

For the first time since 1862, United States bonds command par in gold in the New York market. The credit of the nation may therefore be regarded as fully restored. British consols sell in London for 92½c in money, while United States bonds sell for $1 00 in gold in New York.

NASHUA, N. H., February 27.—Representative Dawes spoke at the Republican meeting last night. He ridiculed the Democratic party for its labor reform and economical pretensions. He said he had been told by President Grant to assure the people of New Hampshire, during his administration, that there shall be no ascending the scale of expenditures.

It is proposed by Republican papers to make an example of the reporter Brooks, at Washington, who says his business is to buy Congressmen, and that he knows that they can be bought "like sheep, for so much a head." The best example they can make of him is to quit selling themselves like sheep.

TRYING TO HARMONIZE.—An effort is being made to harmonize the three wings of the Republican party in Virginia. The movement has the support of the President, and a convention will probably be called to meet in Richmond at an early day to bring about the desired result.

North Carolina has increased her State debt $18,000,000, and with little or nothing to show for it. Facts like these, and they are seen in South Carolina, Florida, Alabama, Texas, and elsewhere, in kind, if not in degree, show the utter incompetency of Radical government for States or the Federal Government.

THE FRANKING SMITH.—A Nashville dispatch of the 18th inst., says there is most positive proof that Congressman Jerusalem Smith furnished his frank to at least six members of the Legislature, his card of denial in one of the New York papers to the contrary notwithstanding.

A Western member of Congress, at a recent dinner at Washington, was particularly taken with the "boned turkey with truffles." He wanted a new invoice of the delicious beverage, so he turned to a fifteenth amendment, with a white apron on, and said: "Cuffee, bring some more of that biled pork with ruffles on."

General Max Weber, who during the invasion of Maryland and part of Pennsylvania, by the Confederate troops, commanded the then strongly fortified post of Harper's Ferry, has been appointed to an United States Assessorship in New York, vice General Sigel, who declined the appointment tendered him by the President.

Your correspondent acknowledges the receipt of a piece of music from Charlie Ward, entitled "Shoo, Purp." In accordance with instructions, it was transmitted to his Excellency, Ulysses I, through the chief butler, General Dent. The General remarked, en passant, that it was his duty to give to General Grant everything presented, but from the title, he thought it wouldn't pay the Executive to read it, and he supposed the author need not expect any office. Dent said he would report at a future time the President's opinion of "Shoo Purp."

Opinion on the Senatorial Question—It Will not be Decided in Two Weeks—Butler Fails to Get the Georgia Bill Up—The 15th Amendment Waiting Action on Georgia Bill.

WASHINGTON, March 3.

A prominent member of the Judiciary Committee said to-day, that although the Senatorial question was not touched in the report on Georgia, presented yesterday, the logical conclusion to be drawn from it is that Hill and Miller are the Senators. Another member of the Committee stated today that the Senatorial question would not be decided for two weeks.

Butler attempted to get the Georgia bill before the House to-day, but failed. He said the 15th Amendment was waiting action on the Georgia bill, and he should present it at as early a day as possible.

ARGUS.

ASSOCIATED PRESS DISPATCHES.

WASHINGTON, March 3.—Judge Busteed, of Alabama, departs to-morrow, to open a regular term of court.

The Territorial Committee reported unanimously in favor of the confirmation of Dr. Bard for the Governorship of Idaho.

In the Senate, a bill was introduced enabling the Leavenworth, Lawrence and Galveston Railroad to extend a branch of their road.

A bill changing the United States Supreme Court circuits, was considered.

Willey offered an amendment, to dispense with the requirement that a Judge shall be a resident of the circuit for which he is appointed.

He urged that the President should be allowed to make his selections from the nation at large, and not be limited to localities; whereas, in Southern circuits, it might be difficult to find a man whose loyalty was of a character to warrant his election to the Supreme Bench.

Davis denied the right of Congress to interfere. No action.

The resolution calling for the names of the States that ratified the 15th Amendment was adopted.

A bill for an estimate of the cost of removing obstructions from bayou Teche, Louisiana, was reported with an amendment.

The funding bill was considered, but no action taken on it.

Adjourned.

In the House, the Committee of Ways and Means were directed to inquire into the expediency of exempting brick makers from the manufacturers' tax, and exempting from revenue persons quarrying blue stone.

A resolution was offered, favoring heavy reduction on fruit and brandy.

Action on the Air Line Railroad, of New York, after a struggle, was postponed.

The tariff bill was taken up, after a contest between Butler, who wanted the Georgia bill, and Schenck.

Brooks made an hour's speech, which was much praised.

Butler offered the Georgia Bill as a privileged question. Farnsworth said that Butler was unauthorized by the Reconstruction Committee to make a report. The Speaker said that the difference between the two gentlemen was a point of veracity. Not in order. Butler said, I am responsible. The Speaker said they must not recognize Chairman Butler. Butler refused to be catechised by his colleagues. Pending squabble, the House adjourned.

A SOLEMN JOKE.—One of the clergymen of Peoria, Illinois, has been put in a parsonage that did not come up to the idea of what a minister should enjoy. Recently he was called upon to announce that there would be a mite society at the ministerial dwelling. He said:

"There will be a mite society on Thursday evening next at the parsonage. The parsonage is a little, old, tumble-down building on —— street."

Some of the older ones of the congregation took umbrage at this, while the younger ones laughed. In the evening the parson was called upon to make the same announcement. After saying that the mite society would be held at the parsonage, he paused a moment, and then remarked:

"On the corner of the street near my residence is a well. Said well is covered over and clap-boarded. It is unpainted and weather-worn, but I wish to describe it so that none of you may make a mistake and take the well for the parsonage. The mite society will be held in the parsonage and not in the well."

NEW ORLEANS SUPPLIES PHILADELPHIA WITH ICE.—How the whirligig of time brings round its revenges! For more than forty years the people of New Orleans have been importing their supplies of ice from the North, paying a large annual tribute therefor, and it was supposed that in this particular at least the South must always be dependent upon the North. But science has made rapid strides, and what once seemed the veriest dreams of fancy, are now proved to be perfectly practical.

New Orleans now manufactures its own ice by steam, and recently the Louisiana Ice Company received an order from the City of Brotherly Love, far-away North, Philadelphia, for fifty tons of ice. We shall be supplying Boston next, though that would seem like sending coals to New Castle.—*N. O. Picayune.*

☞ Whenever a Southerner suddenly becomes loyal, with the view of obtaining office, it is the practice of Congress to pass a bill exempting him from all the penalties of rebellion. From the stand taken by Messrs. Cox, Brooks and Wood, of New York, in the course of a debate on a bill of this kind, in the House on Monday, it is evident that the Democratic members do not propose to assist any longer in this petty business of whitewashing Southern "scalawags." They will probably hereafter vote against any more personal amnesty bills, and will thus hasten the day when a general and complete amnesty will restore the Southern States to their proper position in the Union.—*World.*

KOSKOO!

THE GREAT REPUTATION

Which KOSKOO has attained in all parts of the country

AS A GREAT AND GOOD MEDICINE,

And the Large Numbers of Testimonials

which are constantly being received from Physicians, and persons *who have* BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

AS A BLOOD PURIFIER,

IT HAS NO EQUAL,

BEING POSITIVELY

The Most Powerful Vegetable Alterative Yet Discovered.

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life and good spirits, fair skin and vital strength will return to you.

KOSKOO,

AS A

Liver Invigorator!

STANDS UNRIVALLED.

Being the only KNOWN Medicine

that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead of copious purging*, it *gradually changes* the discharges *to a perfectly natural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes, headache; bitter or bad taste in the mouth, internal heat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the side, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, etc.

KOSKOO!

Is a remedy of *Wonderful Efficacy* in the *cure* of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The Relief which it affords is both certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys can not estimate the *importance* of their *healing action*.

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding, with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

KOSKOO!

Meets with GREAT SUCCESS in the CURE of

DISEASES OF THE NERVOUS SYSTEM,

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work (mental and physical), are causing diseases of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows:

A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache; Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in Answering Questions; Dullness of Hearing; Twitching of the Face and Arms, etc., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, etc., etc.

DR. JOHN BULL,

Manufacturer and Vendor of the Celebrated

Smith's Tonic Syr

FOR THE CURE OF

AGUE AND FEVE

—OR—

Chills and Feve

The proprietor of this celebrated justly claims for it a superiority over all ever offered to the public for the safe, speedy and permanent cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southwestern country to bear him testimony to the truth of the assertion, that in no case whatever will it fail to cure, if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually, this medicine will not require any aid to keep the bowels in good order; should the patient, however, require a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of BULL'S VEGETABLE FAMILY PILLS will be sufficient.

Bull's Worm Destroye

To my United States and World-wide

I have received many testimonials from professional and medical men, as my almanacs and various publications have shown, all of which are genuine. The following letter from a highly educated and popular physician in Georgia is certainly one of the most sensible communications I have ever received. Dr. Clement knows exactly what he speaks of, and his testimony deserves to be written in letters of gold. Hear what the Doctor says of BULL'S WORM DESTROYER:

VILLANOW, Walker County, Ga., June

DR. JOHN BULL—Dear Sir: I have given your "Worm Destroyer" several trials, and find it wonderfully efficacious. It has not failed in a single instance to have the wished for effect. I am doing a pretty large country practice, and have daily use for some article of the kind. I am free to confess that I know of no remedy recommended by the ablest authors that is so certain and speedy in its effects. On the contrary, they are uncertain in the extreme. My object in writing you is to find out upon what terms I can get the medicine direct from you. If I can get it upon easy terms, I shall use a great deal of it. I am aware that the use of such articles is contrary to the teachings and practice of a great majority of the regular line M. D.'s but I see no justice or good sense in discarding a remedy which we know to be efficient, simply because we are ignorant of its combination. For my part, I make it a rule to use all and any means to alleviate suffering humanity which I may be able to command—not hesitating because some one more ingenious than myself may have learned it first and secured the sole right to secure his knowledge. However, I am by no means an advocate or supporter of the thousands of worthless nostrums that flood the country, that purport to cure all manner of disease to which human flesh is heir. Please reply soon, and inform me of your best terms. I am, sir, most respectfully,

JULIUS P. CLEMENT M. D

Bull's Sarsaparilla.

A Good Reason for the Captain's Faith.

READ THE CAPTAIN'S LETTER AND THE LETTER FROM HIS MOTHER.

BENTON BARRACK'S, Mo., April 30, 186

DR. JOHN BULL—Dear Sir: Knowing the efficiency of your Sarsaparilla, and the healing and beneficial qualities it possesses, I send you the following statement of my case.

I was wounded two years ago—was taken prisoner and confined for sixteen months. Being moved so often, my wounds have not healed yet. I have not set up a moment since I was wounded. I am shot through the hips. My general health is impaired, and I need something to assist nature. I have more faith in your Sarsaparilla than in anything else. I wish that that is genuine. Please express me half a dozen bottles, and

Capt. C. P. JOHNSON,
St. Louis,

P. S.—The following was written April by Mrs. Jennie Johnson, mother of Captain Johnson:

DR. BULL—Dear Sir: My husband, Dr. Johnson, was a skillful surgeon and physician in Central New York, where he died, leaving the above C P. Johnson to my care. At thirteen years of age he had a chronic diarrhœa and scrofula, for which I gave him your Sarsaparilla. It cured him. I have for ten years recommended it to many in New York, Ohio and Iowa, for scrofula, fever sores and general debility. Perfect success has attended it. The cures effected in some cases of scrofula and fever sores were almost miraculous. I am very anxious for my son to again have recourse to your Sarsaparilla. He is fearful of getting a spurious article, hence his writing to you for it. His wounds were terrible, but I believe he will recover.

Testimony of Medical Men

STONEY POINT, White Co., Ark., May 23, 186

DR. JOHN BULL—Dear Sir: Last February I was in Louisville purchasing drugs, and I got some of your Sarsaparilla and Cedron Bitters.

My son-in-law, who was with me in the store, has been down with rheumatism for some time, commenced on the Bitters, and soon found his general health improved.

Dr. Gist, who has been in bad health, tried them, and he also improved.

Dr. Coffee, who has been in bad health for a number of years—stomach and liver affected—he improved very much by the use of your Bitters. Indeed, the Cedron Bitters has given you great popularity in this settlement. I think I could sell a great quantity of your medicines this fall, especially of your Cedron Bitters and Sarsaparilla. Ship me via Memphis, care Rickett & Neely.

Respectfully, C. B. WALKER.

THE DAILY CONSTITUTION.

ATLANTA, [illegible]

[illegible]—Yesterday [illegible] beautiful, springlike day. [illegible] night it clouded up, and as usual, rained.

DISCONTINUED.—After Monday next, night passenger trains on the Athens branch of the Georgia Railroad will be discontinued.

PERSONAL.—"Gov." Wise, of LaGrange, was in the city yesterday stopping at the Wagnon House.

CHATTANOOGA.—The receipts of grain at Chattanooga have been large for the past few days, and, in consequence of prohibitory tariffs, are stored in the warehouses there.

SUPREME COURT—*Evening Session—March 2, 1870*.—Argument was resumed and concluded in No 4, Rome Circuit.

Court adjourned till 10 o'clock, A. M., tomorrow.

CANDIDATES FOR PRESIDENCY IN 1872. Already have nominations been suggested for President in 1872. One ticket we have heard named is Butler and Blodgett. The latest is Revels and Turner.

SENT TO THE WORK GANG.—Peter Henderson, alias Peter Taliaferro, (colored,) plead guilty to the charge of adultery yesterday, before Justice Spencer, and was sentenced to the work gang for six months.

BUSINESS IN THE CITY.—While there was a moderate degree of activity in commercial circles yesterday, and no change in prices as given in our market report of yesterday evening, merchants are beginning to feel the effects of high freight tariffs and meagre transportation. Corn is better. There is a large quantity of unsound or damaged corn in market.

NEW CORN SHELLER.—Mr. J. Madison Gray, of Bolivar, Tennessee, General Agent of the O'Hara Pocket Corn Sheller, has exhibited one of the shellers to us, and from its working, we are inclined to believe it to be worthy of all the commendation passed upon it. It appears to be a common sense thing, capable of shelling any kind of corn in double quick time.

REMEDY FOR TOOTHACHE—Carbonic acid, according to the London Lancet, is a sure cure for toothache. Two drachms of Calvert's Carbonic Acid is added to one drachm of Collodium. A gelatinous mass is precipitated, a small portion of which, inserted in the cavity of the aching toothe, is said to give relief in every case. Those who suffer from this painful affliction will do well to make a note of it.

NEW AND ARTISTIC PHOTOGRAPHS. Lane, the Artist, has introduced a new style of photographs, called the Rembrandt, or old-fashioned "Miniature," in Atlanta. They have the appearance of miniatures, and are the handsomest photographs we have seen.

Mrs D. A. Walker colors them, and imparts to them a softness and delicacy of finish which gives a peculiar charm.

THE CONCORDIA.—Notwithstanding the inclement character of the weather last night, Concordia Hall was filled with a fair audience. The performance was a brilliant success.

The late hour at which we write, precludes any extended notice, but suffice it to say, that the brilliant reputation of the Concordia was fully sustained by each performer. The rendition of "Ben Bolt," and "Reuben Rags," was striking, and peculiarly fine.

ONWARD, READING CLUB.—We learn that a meeting of this club will be held to-night at Miss Latimer's school house, for the purpose of organizing for the spring campaign. We trust that there will be a full attendance. The meeting of our young friends for culture and improvement is highly laudable. To them we say, in the language of Felicia Hemans, God speed you in the effort to "make a sunny realm of thought and beauty" around you. Go on, and

"Turn back the tide of ages to its head
And hoard the wisdom of the honored dead."

Onward!

MORTUARY REPORT.—In the subjoined report, will be found the list of interments in the city of Atlanta, for the month of February, 1870.

DEATHS.

Whites, 22; colored, 35; total, 57.

Whites over ten years,	15
Whites under ten years,	7
Colored over ten years,	18
Colored under ten years,	17
White paupers,	3
Colored paupers,	23

The number of interments for the month just closed shows a decrease of thirteen, as compared with the report for the preceding month, (January) seventy deaths having occurred during that month.

J. N. SIMMONS,
Chairman Board of Health.

NEW ENTERPRISE IN ATLANTA.—The want of a manufactory of fine custom made work for ladies and gentlemen, has long been felt in Atlanta. Much of the shoes and boots made at the North do not suit the conformation of the Southern foot. We are gratified to learn that our enterprising fellow citizen, M. O. Markham, has established in this city, an institution of this character. He has secured the services of experienced and skillful workmen, who will be under the control of a foreman who has had many years experience in the business, in New Orleans and New York. With good workmen and good material, Mr. Markham is satisfied that he can not fail to please the people of Atlanta, in fine custom made work for ladies' and gentlemen's wear.

BROOM CORN.—The establishment of a broom and brush factory in this city is likely to prove of practical benefit to this section. Broom corn can be readily raised in this latitude and made to be a lucrative crop to the farmer. It requires good soil and cultivation. It should be planted in drills three feet apart, and from six to ten inches apart in the drill, and from six to ten seeds in a place.

Cultivate until it is five or six feet high, throwing a little dirt to the rows every time. The heads are bent down and the brush cut before it is fully ripe, and the crop cured under cover. In good soil and with careful cultivation, one ton can be raised on three acres. At 12 cents per pound, the price paid for it in this city, one ton will bring some $240, or $80 per acre.

AN EXCITING CHASE AND CAPTURE.—Hunter street was the scene of a lively incident yesterday evening, which enlivened somewhat its dull monotony. A young lady, whose flowing curls and sparkling eyes attracted admiration, no less than the lillies contending with the roses on her cheeks, her ruby lips, neck like a rock of crystal, or her "every limb proportioned to love's wish, and adding neatness to her attire." She spied a snow bird hopping along the sidewalk in front of the Christian church, when a sudden caprice seemed to seize hold of her to catch the tiny beauty. In the excitement of the chase she assumed all the abandon of childhood. The bird seemed to be the spirit of Tantalus, himself, now stopping on the sidewalk, with a "twit-twit," until she came up, and almost touched it with her taper fingers, when it would fly off a few yards in advance, and again halt. Thus the race progressed, until near the residence of Dr. Taylor, when the fascinating bird fancier, who made extraordinary good speed in keeping pace with its movements, executed a flank movement, surrounded it, captured it, and carried it home in triumph, exclaiming, "A bird in hand is worth two in the bush." The bird has been duly caged, named Harry, and will be brought out as a "singist," if a snow bird possesses any vocal powers.

CASEY VS. YOUNG.—This was a very interesting case tried before Judge Spencer on yesterday. Mr. Glenn, of Glenn & Son, appeared for plaintiff, and Mr. Dell, of Mynatt & Dell, for defendant.

Casey's blind horse, being turned out to graze on the 6th of February last, (Sunday too) strayed upon the unenclosed city lot of Young, and fell into Young's uncovered well, 30 feet from the side walk, Casey sues Young in attachment, (Young living out of the State) for $100. Is Young liable? That is the question.

Mr. Glenn contended he was, because of the city ordinance requiring all persons to keep their wells covered over; and that he was liable generally. Mr. Dell cited many authorities, showing that under the general law of the State, there was no liability upon the defendant, and that in such using of his land by Young, he did no injury to Casey's legal rights.

That the city ordinance imposed no liability upon defendant to plaintiff, but only to the city corporation. If the city ordinance attempted to create this liability between the parties, it was contrary to the general State law on the subject and void.

Further, that the city could not create liabilities and duties *between* its citizens so as to regulate their rights in a State Court; for if the ordinance so creating them was contrary to the general law of the State or special legislative enactment, it was void; and if, in consonance therewith, the same ground was covered by the State law, and that should be the rule of decision.

Judge Spencer reserved his decision until 9, A. M., to-day.

KOSKOO.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.

The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day.

Public Sale

—OF—

Valuable Real and Personal Prop'ty.

THE subscriber, as agent, will offer at Public Sale, on Tuesday, the 29th of March, 1870, upon the premises, in Carroll county, Maryland, within a half-mile of Sykesville Depot, Baltimore and Ohio Railroad, the highly improved estate

"SPRINGFIELD,"

The residence of the late George Patterson, Esq., distant 30 miles from Baltimore by rail, and 20 by turnpike, containing about 2,000 acres of land of the finest quality, in the best state of cultivation, and laid off into convenient fields by good post and rail fences, with plenty of water in each field. In addition, there is a never failing stream running through the center of the farm, upon which is erected, and in good repair, a Flour and Saw Mill. The other improvements consist in part of a large and well-built Dwelling, containing over twenty rooms; thirteen houses for hands or tenants; about forty substantial Grain and Hay Barracks; seven Cattle and Sheep Barns; a Span Grapery, [illegible] feet; Green and Propagating Houses, Ice, Carriage, Corn, Hogs, Meat and Poultry Houses, and all necessary outbuildings for a well-conducted farm, with fine selections of Fruit, Shade and Ornamental Trees. This farm will be offered entire; but if not sold, will be laid off into lots or farms of 150 to 500 acres. Plats will be ready by day of sale showing the different lots.

"The Springfield and Carroll" Copper Mines, also on this farm, only need proper management to render them highly profitable. At the same time and place, will be offered the well-known

DEVON HERD,

so justly celebrated throughout the land, and pronounced by all competent judges to be the best in the United States. It consists of the imported Bull "The President," and over one hundred head of various ages; some two hundred head of Southdown and Shropshiredown Sheep; sixty head of Berkshire Hogs; six thoroughbred Mares and Geldings; fifteen Half-Percheron Horses and Colts, together with several Saddle and Light Harness Horses, and a number of other Farm Horses; a full complement of Farming Implements, etc.

The sale of personal property will commence at 9 o'clock A. M., and be continued from day to day until all is sold.

The real estate will be offered at 12 o'clock M. the first day of sale.

Terms of sale for the real estate will be accommodating, and will be made known on day of sale. [illegible]

Any one desiring further information, or wishing to inspect the property, will please call upon or address.

THE NEW JOURNALS.

THE undersigned have the pleasure of announcing to their friends and the reading public generally, that they will issue in this city, on or about the 5th proximo, a Daily and Weekly newspaper, under the title of

THE MACON DAILY JOURNAL,

—AND—

MACON WEEKLY JOURNAL.

In regard to the politics of the paper, it will be enough to say that it shall be the effort of our life to make such a stand for law and the rule of upright men as shall vindicate our claim to rank with the true sons of the south and defenders of the country's honor and safety. It is very true that this sounds like piping the crew to the pumps, as the good old ship seems to be in the very act of settling for her final lurch. But events are not to be discussed when present duty commands. That duty, to our mind, is resistance by every power of intellect, to the amazing corruptions of latter-day government, and by every lawful means to stay, if possible, the fearful decline of the Republic. This, in our humble judgment, can not be done by acquiescence and lending co-operation, because "the days are evil."

In the plan which we have marked out for the conduct of this paper, we have given especial prominence to the News Department—and we shall spare neither labor nor expense in furnishing its readers with the most varied and extended intelligence of the news of the day.

The Commercial Department will receive special attention, and be always found reliable.

Our firm being composed of practical printers—each member personally superintending a special portion of the work—is sufficient guarantee that the mechanical execution of the paper will reflect no discredit upon our professional reputation.

The DAILY JOURNAL will contain twenty-eight and THE WEEKLY thirty-six long columns of reading matter. That both editions may be placed within the reach of the masses, they will be furnished at the following extremely low rates:

Daily Journal, one year		$6 00
" "	six months	3 50
" "	three months	2 00
Weekly Journal, one year		2 00
" "	six months	1 25

Subscriptions to the DAILY, for a less period than three months, 75 cents per month. No subscriptions to the WEEKLY for a less period than six months. Terms cash in advance. No paper will be sent unless the money accompanies the order; and the paper invariably stopped at the end of the time paid for.

Our advertising rates will be found moderate, and we solicit the patronage of the business men of Macon, pledging ourselves to merit their favors.

THE JOB OFFICE

Will be a first class establishment—filled with the latest style of the typographic art—under the superintendence of one of the best Job Printers in the South, assisted by experienced workmen. In asking the favors of our friends in this line, we have but to say our motto will be PROMPTNESS, DISPATCH and MODERATE CHARGES. Perfect satisfaction guaranteed, or no money demanded.

Our office is located at No 10 Hollingsworth Block Poplar street, where we will be pleased to welcome our friends at all times.

Messrs. Abbott & Bro., Atlanta, Ga.—Sirs: In reply to your enquiry, as to the merits of Merryman's Raw Bone Phosphate, I take pleasure in stating that in my opinion there is no Fertilizer in use that is superior to it. I used it on my cotton, and am well pleased with it, and will use it more extensively another year. I do not hesitate to recommend it to all who want a good reliable Fertilizer.

Yours, truly, ELLISON RUSH.

EAST POINT, GA., Oct. 21, 1869.

Messrs. Abbott & Bro., Atlanta, Ga.—Gentlemen—The two tons of Merryman's Raw Bone Phosphate, purchased of you last spring, I applied on my cotton and potatoes, with the most satisfactory results. Until this year, I have always used the Chesapeake Guano and Baugh's Raw Bone Phosphate, and I have no hesitancy in saying, after thorough tests, that Merryman's Raw Bone Phosphate is fully equal, if not superior to either of the others.

Yours, truly, JOSEPH CALDWELL.

MORNING SESSION.

ATLANTA, March 3, 1870.

Argument was resumed and concluded in No. 1, Rome Circuit.

No. 2 was put to the heel of this Circuit by consent.

No. 3 was argued. It is Noah Kite vs. J. H. Lumpkin. Rule against Sheriff from Floyd.

A. R. Wright, E. N. Broyles, for plaintiff in error.

Underwood & Rowell, Smith & Branham, for defendant.

No. 4 is W. P. Chisolm vs. Wade S. Cothran et. al. Award from Floyd.

Printup & Fouche, for plaintiff in error.

Smith & Branham, by J. W. H. Underwood, for defendants.

Pending the opening argument, Court adjourned till 3 o'clock, P. M.

"I GOES FOR DAT BILL, SHURE."—Last evening Manager Bateman called at Wallack's Theatre to say adieu to the handsome Theodore Moss and the genial Lester before his departure for Europe. Having just returned from New Orleans, he related his experience, which was somewhat varied, to say the least. Mr. Bateman said he visited the Legislative Hall of Louisiana, and arrived just in time to hear a most interesting argument between the members. The question under debate was that of increasing the pay of the members, which was then $6 per day.

A member rose and proposed to increase the pay to $8 a day.

Another member strenuously opposed the motion.

Member from the suburbs proposed to increase the amount to $10 a day.

Immediately a big, burly colored "gemmen" leaped upon his seat, and, in stentorian tones, delivered himself of the following:

"Mr. Speaker and 'gemmen'—Dis am de fust time I ebber had a chance to make ten dollars a day in my life, and I goes for dat bill, shure!"

At last accounts the member had bought a $25,000 residence, saying he "would pay $10 down, and de balance in a year."—*N. Y. Sun.*

HENRY'S

CARBOLIC

CONSTITUTION RENOVATOR,

—OR—

BLOOD CLEANSER!

This medicine is known to the faculty as being the concentrated fluid extract of Sarsaparilla united with

CARBOLIC ACID

For the Cure of

SCROFULA and CONSUMPTION.

This remedy is compounded expressly for purifying and cleansing the blood of all impurities, going at once to the fountain head of disease. It extinguishes

Tumors, Consumption, Syphilis, Skin Eruptions, Salt Rheum, Boils, Rheumatism, Waste of Vitality, Scrofula.

We all know that the promiscuous vaccination indulged in during the late war, bred the most villainous diseases. Vaccination pus was taken from the arms of many full of scrofulous sores. Then of course the impurities of the scrofulous patient were absorbed in the blood of some otherwise without disease, and both became infected alike. Men, women and children throughout all the west are most woefully diseased from this cause, and knew not until a few months ago, the origin of it.

HENRY'S CONSTITUTION RENOVATOR

Relieves the entire system of Pains and Aches, enlivens the spirits, and sends new blood bounding through every vein. It imparts

Sparkling Brightness to the Eye.
A Rosy Glow to the Cheek.
A Ruby Tinge to the Lips.
A Clearness to the Head.
Brightness to the Complexion.
Buoyancy to the Spirits.
And Happiness on all Sides.

For all affections of the kidneys it is unsurpassed. People have been rescued, as it were, from the very jaws of death, by a timely use of this great remedy.

EXTRACTS FROM VARIOUS LETTERS.

"I was vaccinated in hospital. Before that I had no skin disease. Until I had a bottle of your Constitution Renovator sent me by Mr. Roper, of Columbia, Mo., I suffered tortures with running sores. Since I used two bottles, I am all well except a small sore on the calf of my leg, and that is getting well fast."

This is from a lady: "And now my skin is as clear and fair as a babe's. My complexion, thanks to your Renovator, is beautiful."

"Yes, yes, I may say such relief was unknown to me before. Enclosed find five dollars for six bottles; two families here want to try it."

"I was very much troubled with syphilis. Your remedy seems to be curing me fast. Send four bottles per express."

"No more rheumatism. Three bottles of Constitution Renovator have made me a new man."

"Doctor, enclosed find $5. Please send me a supply. Two families here want to try your Constitution Renovator."

We have not space for more of the above extracts, but you can ask your neighbor about the remedy. Every one has something good to say, as it cures every time. For all diseases of the

Kidneys, Retention of the Urine, etc., and for female Diseases, Nervous Prostration, Weakness, General Lassitude and Want of Appetite, it is Unsurpassed.

CAUTION.—In ordering our remedy, always place the number of our post-office box on your letters. The new law in our New York Post-office compels this. Address,

THE
WILLINGHAM
FERTILIZER

FOR
COTTON, CORN,
WHEAT.

THIS STANDARD MANURE, named after a well known practical Planter of Georgia South Carolina, combines in a concentrated form all the fertilizing elements necessary production of COTTON, CORN and WHEAT, and by its use is certain to increase not only but to improve the quality of the products. It is made with a special view to the wants soils of the South, and can be relied upon as to excellence of material, containing highly sary substances, the great cost of which have heretofore precluded their being in comme It can be depended on as uniform, always reliable, and productive of good crops.

ALBANY, GA., September,

Having a full knowledge of the composition and process of manufacture of the "Willing Cotton, Corn, Wheat and Rice Fertilizer," I have no hesitation in pronouncing it to be a liable fertilizer, one of the best in use, and most particularly adapted to the soil of Georgia South Carolina.

A New and Superior Variety of Cotton,

WITH FROM 200 TO 300 OPEN BOLLS ON THE STALK.

THE HOLMES EARLY PROLIFIC.

THE EARLIEST MATURING AND LARGEST PRODUCING COTTON KNOWN.

Parties ordering these Seed by the quantity will be supplied at the rate of seven dollars per bushel. Single bushel, eight dollars.

These seed are guaranteed to mature three to four weeks earlier than any other variety.

The Subscriber offers the Seed of the above named Variety of Cotton Recommending it:

1ST. ON Account of its early maturity; and 2d. Its immense yield. This is the first introduction of it into Georgia. It has stood a thorough and severe test on the River Lands of the Mississippi. Four years ago, a few seed (not more than twelve or fifteen) were brought by a traveler from California; and since that time I have been growing and increasing my crops of it, and every season have met with success. It has improved in early maturity and productiveness—in both has proved itself a wonderful variety, and not to myself alone, but to every one who has grown it or seen it grow:

For Want of Space I Can Only Offer a Few Testimonials:

Selma, Ala. July 22, 1869.

DR. H. J. HOLMES—Dear Sir: Your favor of the 9th inst., duly received, and I have delayed writing you, than your early prolific Cotton might further develop what it was likely to do. It has surpassed my expectations, and is the wonder of the farming community, who are watching its daily growth with great anxiety, and is visited by them as they come to town both far and near. The stand is not good, because we planted it sparingly, you recollect; then the cut worm in the spring injured it. It has not grown very tall—say four to five feet—but has limbed out from bottom to top—full twice as much cotton, the planters say, as is general on their farms, and full as well matured, although we planted it three weeks later. There are from 100 to 300 bolls now on the stalks.

Very truly,
J. F. DENNIS, Cotton Factor.

Selma, Ala., September 4, 1869.

DR. H. J. HOLMES, Atlanta, Ga.—Dear Sir: Your favor of the 3d inst., just to hand and contents noted. I am very much pleased with the early prolific Cotton. It has come fully up to the description you gave it. In some instances, there are three bolls to the joint, and from eight to twelve bolls to the limb. But I consider its greatest merit to be its early maturity. I am satisfied my little patch was three weeks earlier than an adjoining lot, planted on the same day mine was, (28th April). I am also pleased to say that the staple is unusually long and fine.

Yours, very truly,
W. S. KNOX, Cotton Factor.

Union Springs, Ala., Sept. 6, 1869.

DR. H. J. HOLMES—Dear Sir: The Early Prolific Cotton is fully three or four weeks earlier in its maturity than any other Cotton planted in this neighborhood; at least, it has proved so with the experiment I made with it this year. I planted the Dixon on the 10th of April, and finished on the 17th with Peeler; yours on the 1st of May. Your Early Cotton had the first blooms. I shall give it a fair trial the next year, and will give you the result if desired.

Yours, most truly,
E. TROUP RANDALL.

PLANTERS ARE CAUTIONED

Against purchasing from other parties than my authorized Agents, as I have not more than one thousand or twelve hundred bushels of these Seed for Sale.

Specimen stalks of this Cotton, containing 200 to 300 open and grown bolls, are exhibited in the Agricultural Warehouse of SAM. A. ECHOLS, where persons visiting Atlanta are invited to call and examine this Cotton for themselves.

Arrangements are made to supply parties wishing to plant only a small quantity of these Seed, by having them put up in small bags, neatly done up, and sent by Express, or as otherwise directed—price $2.

Orders for these small parcels, sufficient to plant three-quarters of an acre, must be made to
